ALFREDO SALZILLO

SENIOR FRONT-END DEVELOPER https://github.com/alfredosalzillo

EXPERIENCES

F11 (Factor Eleven) | Senior Front-End Developer *April 2025 - Present*

- Optimized the Mapbox-based ad geo-targeting system by implementing custom pbf tiles, adding new filtering features, and leading the migration from country-generated to dynamic styling.

Zakeke | Senior Front-End Developer *April 2024 - March 2025*

- Contributed to the migration of the in-house product customizer from jQuery to React.
- Improved the render performance of the canvas-based in-house product customizer by 90%.

Treedom | Lead Front-End Developer *November 2021 - March 2024*

- Led a team of 4 front-end developers, providing mentorship and technical guidance, while collaborating with product stakeholders to define roadmaps, prioritize tasks, and manage the product backlog.
- Led the progressive migration of the application from AngularJS/Vue to a React SSR architecture using Next.js.
- Implemented improved internationalization (i18n) management using Lokalize.
- Improved website performance (Lighthouse 'F' to 'A'), reduced carbon footprint by 75% (2g to 0.5g CO2/page), and decreased load time by 70% (10s to <3s).

Together Price | Lead Front-End Developer *September 2019 - October 2021*

- Led a team of 3 front-end developers, providing mentorship and technical guidance.
- Led the migration of the React Progressive Web App (PWA) to TypeScript, improving code quality and maintainability through the implementation of CI/CD pipelines.
- Developed a custom solution for implementing a micro-frontend architecture.

ProgettoPA | Full Stack Developer *October 2018 - September 2019*

- Developed a custom solution for a multi-technology micro-frontends architecture using React and Angular.

Lutech SPA | Junior Developer *October 2015 - October 2018*

PROJECTS

rollup-plugin-multi-input
A plugin for the rollup bundler useful to build modular libraries.

blobs-dead-or-alive
A game of blobs... dead or alive?

EDUCATION

Federico II, University of Naples
Degree course in computer science

PROGRAMMING SKILLS

Languages and Framework

Javascript Typescript Bash CSS HTML5 React Node SQL Angular Vue GRAPHQL RESTFul Webpack Rollup
